Summary

CSE student at Daffodil International University with hands-on experience in web development, AI integration, and software engineering. Built public GitHub projects including A Library Management System, AI face analysis system and a custom Bangla-to-C compiler. Certified in PHP Laravel, AI-powered Web Development (JS + Claude Code), and UI/UX Design. Eager to contribute to real-world projects and grow professionally in a collaborative team environment.

Languages: Bangla (Native) • English (Proficient) • Urdu (Conversational)

Skills

Web Technologies: HTML5, CSS3, JavaScript, PHP, Laraval, Flask,Django (Python)

Programming Languages: Java, Python, C, C++, Bash/Shell

Tools & Other: MySQL, Git, Figma, OOP, Data Structures, Algorithms, UI/UX Design, Linux, System Design, Computer Networks

Experience

Executive Member — AR-VR Lab

2023 – Present

Daffodil International University

- Collaborated with the development team on lab research, technical initiatives, and content creation.
- Managed research activities and project tracking across multiple ongoing lab programmes.
- Organised and assisted in workshops, seminars, and lab events attended by 100+ participants.

Academic Project Lead — CSE Department

2024 – Present

Daffodil International University

- Led full development of the Hall Management System covering seat booking, late entry, and payments (Java, MySQL).
- Led the Car Model Magazine Website with admin panel, user comments, and ratings (PHP, MySQL).
- Currently coordinating development of a Library Management System (Python, HTML, CSS, JavaScript).

Projects

FaceVibe AI face detector System | Python, Flask, DeepFace, HTML/CSS

AI-powered face analysis web app with real-time emotion detection, beauty scoring, and image rating via the DeepFace deep learning library. Integrated a clean frontend for seamless user interaction.

Library Management System | Python, HTML, CSS, JavaScript

Full-featured library portal with book search, issue and return tracking, and member management (currently in progress) Admin pannle to host and approved.

Carverly — Car Buying Store | HTML, CSS, JavaScript

Modern responsive car-buying website frontend with car listings, clean UI, and user-friendly navigation. Focuses on layout design and interactivity.

Custom Bangla Translator to C → C Compiler | C++

Designed and built a full compiler pipeline including lexer, parser, AST generation, and C code output from a custom Bangla-syntax programming language. Demonstrates strong compiler design knowledge.

Online Food Delivery System | C — Stack & Linked List

Food ordering system with menu browsing, cart management, and billing logic built using fundamental data structures (stack and linked list).

Amazon Clone Frontend | HTML, CSS

Pixel-accurate Amazon homepage clone with responsive layout, navigation bar, product grid, and modern UI design.

Automated Attendance Login System | *Bash, Linux*

Automated attendance and login tracking system using Bash scripting in Linux, with user authentication and log file management.

Certifications

AI with Web Development: Javascript with Claude Code — Ostad	C43184
AI with UI/UX Design: Figma AI, Claude & Nano Banano — Ostad	C41668
Website UI/UX Design — Simplilearn SkillUp	May 2025
SQL for Beginners — Udemy Academy	Nov 2024
PHP Laravel Web Development Career 2026 — Ostad (<i>Atik Bin Mustafij</i>)	C43185
Database Management Workshop — Daffodil International University	2024
Computer Networks & System Design Seminars — DIU	2024

Education

B.Sc. in Computer Science & Engineering <i>Daffodil International University, Dhaka</i>	2023 – 2027
Higher Secondary School Certificate (HSC) <i>Milestone College</i>	2019 – 2021
